MEMORANDUM FOR: [REDACTED]

SUBJECT: Procurement of USARPAC G-2 Town Plans

1. FE Division, DD/P, has requested us to provide it with copies of 27 town plans of North Korea produced over the past eight years by Army G-2 in the Pacific Theater. The plans were originally published by Geographic (Strategic) Branch, Intelligence Division, Far East Command; subsequent revisions would show Army Forces, Far East or USARPAC as originating headquarters.

2. We are unable to supply these maps from Washington stocks and have suggested to FE Division that the DD/P arrange for lateral distribution within the Theater. It appears, however, that the field is not presently in a convenient position to do this. To direct a request through ACSI is deemed to be too time-consuming.

3. We desire, therefore, to enlist your help in the matter. It is requested that you contact G-2, USARPAC and procure, as available, town plans covering the following cities:

(Two copies each)

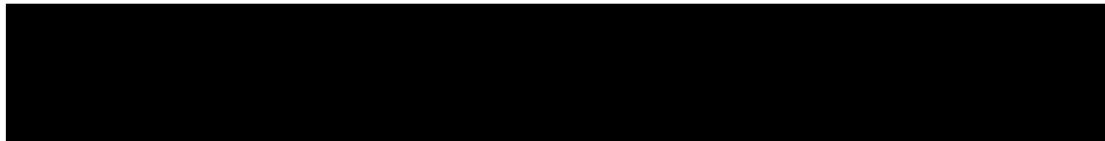

Haeju	Hamhung
Sinanju	Hungnam
Kaesong	Songjin (Kimch'aek)
Wonsan	Ch'ongjin
Anju	Aoji

(One copy each)

Kyomi'po (Songnim)	Sinbukeh'ong
Chinnampo (Manpo)	Taech'on
Sunch'on	Kilchu
Chongju	Samhyang-dong
Yangdok	Nanam
Pukch'ong	Puryong
Kanggye	Najin
Manpojin (Manpo)	Unggi
	Namyang

All but Kaesong, Taech'on, and Wonsan are contained in Special Report Nos. 22, 31, 51, 53, 56, 57, 62, and 153. It is suggested that you contact Herman J. Thoben, Philip S. Weadock, or George Allen, who are the principal chiefs in charge of the G-2 USARPAC strategic intelligence program and are intimately familiar with the town plans listed and their availability.
